Dear Valued Customers,

Recently, there have been reports that a small number of self-proclaimed PV module distributors are offering Yingli Solar products at unreasonably low prices. We have taken the necessary steps to investigate such matters, and have reason to believe that they are either ill-intended market disruptors who do not possess Yingli Solar products, or distributors who deal with illegal counterfeit products. Your discretion is advised if you receive solicitation with prices not in conformity with the market standard.

We have previously identified trustworthy business partners to distribute Yingli Solar products worldwide, who have been properly documented as official distributors for Yingli Solar products. We invite you to contact us directly via following telephone, email or facsimile in case of doubt or questions. At Yingli Solar, we always thrive to better serve our valued customers.
